Dear Parents and Carers,

Year 5 Science - Biology (The life process of reproduction in animals)

As part of the Year 5 Science Curriculum we will be teaching the children the life processes of reproduction in animals.

We will be using accurate scientific vocabulary to describe the male and female sexual organs and also showing carefully selected videos to enhance the learning.

This is not part of the SRE Curriculum, and therefore it is not optional; however, if you have any queries, please do not hesitate to contact us.

Kind regards,

Mrs Carver and Mrs Das
